### Ho-Chunk Nation response to Stockbridge-Munsee court filing

For the past 8 months, the Stockbridge-Munsee Tribe has spread false information and continues to litigate its opposition to the Ho-Chunk Nation's Wittenberg improvement and expansion project in the media. Now that a court action has been filed, the Nation will have the opportunity to present what the facts really are in this matter. "We are prepared to safeguard our interests and are confident we'll be successful in court and finally be able to resolve this issue," said Wilfrid Cleveland, Ho-Chunk Nation President.

The Nation is excited about the Wittenberg expansion which will provide a substantial economic boost to the Wittenberg area and provide our guests with an enhanced entertainment experience.

The project, which includes a new hotel and restaurant, is expected to be completed later this year.
